

# DynaStrip

Imposition software, tailored to tackle any imposition job

Its powerful object-oriented architecture and light-table interface allow customers to fully customize and control their imposition layouts. Its flexibility is unparalleled: DynaStrip integrates with all major workflow systems and RIPs and can handle files from over 100 applications. With over 12 years of evolution in real production environments, DynaStrip is the new standard in imposition.

## Highlights:

- easy-to-learn light-table interface: Forget the outdated, complex data-entry methods of many imposition products
- Flexible: DynaStrip is tested, certified and bundled with all industry-standard workflows
- Handles PostScript, EPS, DCS, ICF, PDF, PJTF and JDF files
- Network Licensing that can provide protection to up to 10 concurrent users on Mac and PC
- Keeps template creation and management to a minimum
- Reduces waste through job ganging and press-sheet optimization
- Outputs to any printer, digital imaging device, imagesetter or platesetter
- Robust and optimized for high-performance production

## No two printers are the same--and neither are their imposition jobs

The DynaStrip product suite offers solutions tailored to specific needs:

### DynaStrip Compact

Full-featured imposition software for the 2-up and 4-up printers.

### DynaStrip Full

Full-featured imposition software for commercial printers tackling anywhere from 2-up to X-up jobs.

## DynaStrip Automation

Advanced imposition, combined with page-pairing capabilities for newspaper and magazine printers.

## DynaStrip Fusion

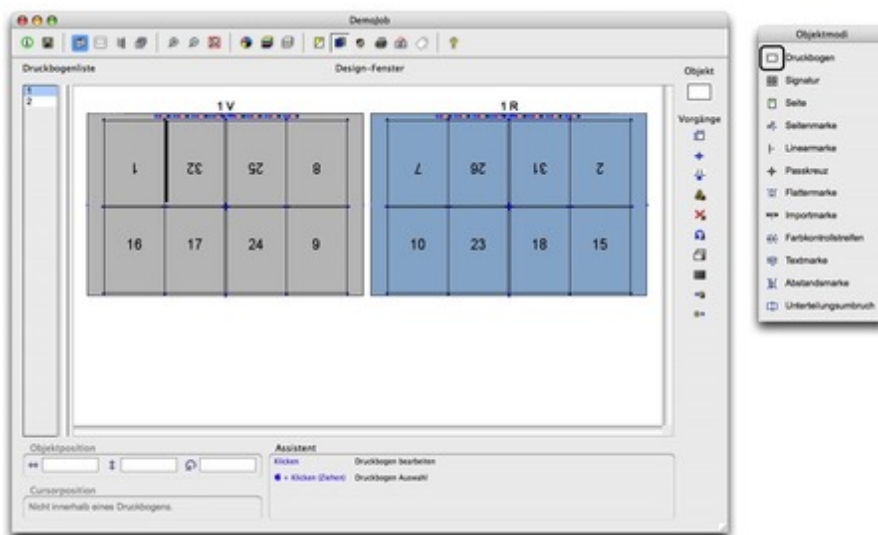

Advanced imposition, combined with versioning capabilities for printers handling multilingual documents, catalogues and direct marketing campaigns.

## DynaStrip JDF Import

This product edition is dedicated to printers equipped with an MIS system and looking for overall JDF connectivity. Its advanced JDF input capability is offered as an addition to the existing output module. DynaStrip JDF Import is compliant with CIP4 MIS to Prepress (MISPRE) Interoperability Conformance Specification (ICS) and is compatible with MIS systems such as:

- Cerm
- Ecoffi
- GamSys Software
- Graphisoft
- Hiflex Corp.
- Optichrome
- Shuttleworth Business Systems
- Tharstern Limited

and others.
