

Azalea UPC EAN XT

For producing Barcodes (UPC A and E, EAN 8 and 13 and Bookland as well as ISSN formats)

Azalea UPC_EAN XT produces professional barcodes in QuarkXPress by generating EPS files. High quality PostScript barcodes in the formats UPC A and E, EAN 8 and 13 and Bookland (ISBN) as well as ISSN are possible. If you wish to, barcode can also be used as regular type font.

Barcodes can be minimized to adjust the ink smearing while printing. Furthermore it is possible to tint the barcodes.
