

XML assignment picture

If a picture has been assigned to a QPS article with **ex BoxTools** or **ex Identifier** the picture can be saved or pushed to a URL or FTP adress. The name of the picture can be put into the XML file.

The image shows a dialog box titled "XML assignments" with two main sections: "XML Target" and "Layout Source".

XML Target section:

- Type: Element
- Name: Name of Tag
- Occurrence: 1
- Format: CDATA Section

Layout Source section:

- Type: Picture
- Name: Name
- Name: Image
- Sources of same type: Single Elements
- Format:

At the bottom of the dialog are "Cancel" and "OK" buttons.
