

FlightCheck Designer

FlightCheck Designer is a streamlined version of FlightCheck Professional but has a wealth of features

Remark: Flightcheck Designer is discontinued! Upgrade from Flightcheck Designer to Flightcheck Pro available for 129,00 €net.

Perfect for designers or creatives that just need a basic yet complete pre-flight check and job collection with all fonts and images in a FlightCheck Approved folder.

The simple drag-and-drop interface inspects your documents for colors, fonts and images. The application then collects the document and images as well as screen and printer fonts. It compresses the job and includes the Ground Control settings for transmission to your service bureau.

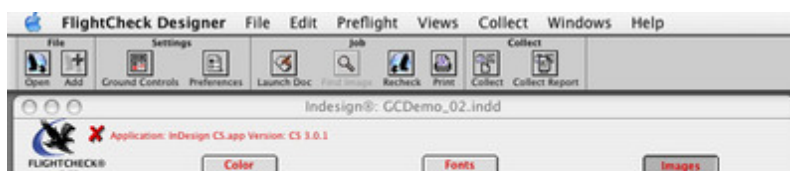

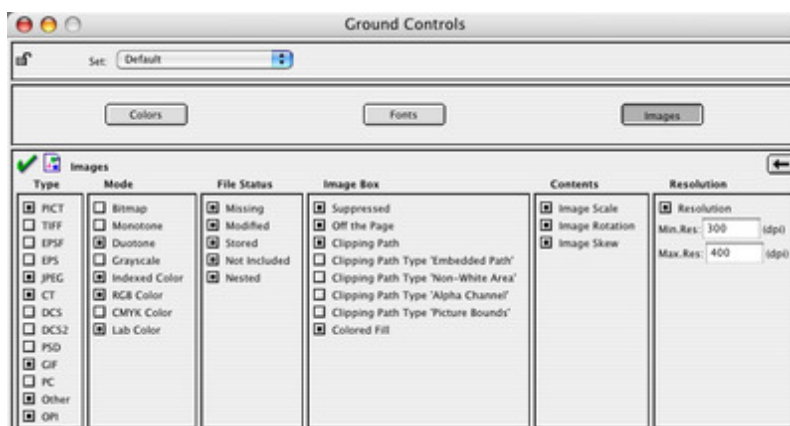

Major industry standard specifications such as PDF/X-1a and PDF/X-3 compliancy as well as the Ghent PDF Workgroup (GWG) PDF/X PLUS are built directly into FlightCheck as special Ground Control Sets and ready-for-use, out of the box.

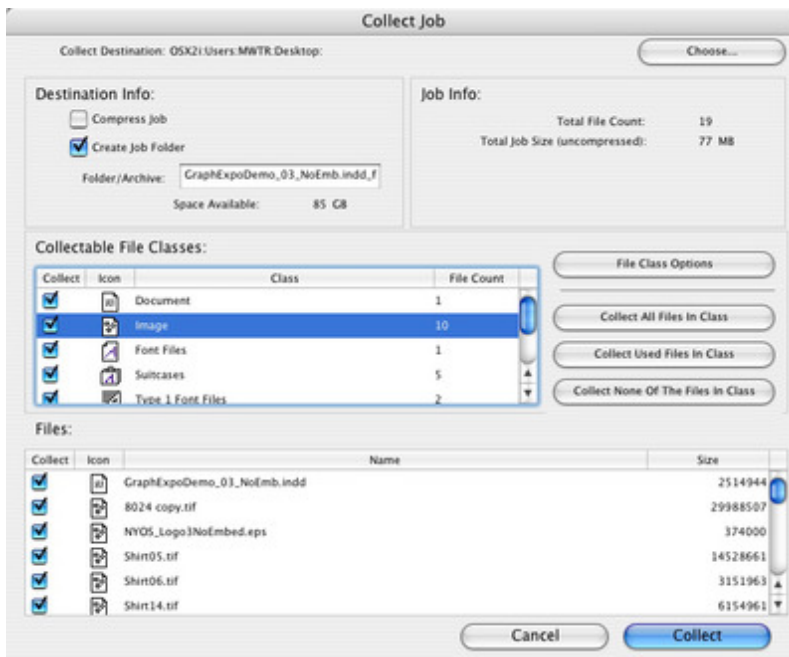

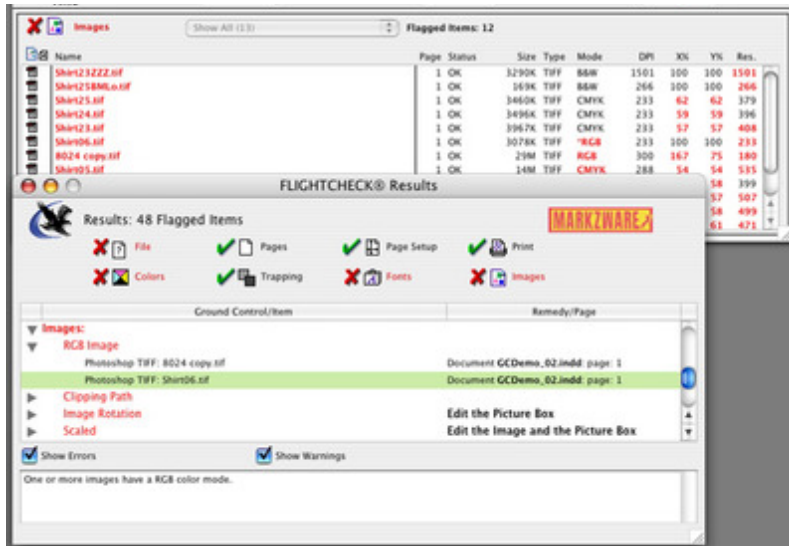

BENEFITS

- Basic preflighting for artists and designers
- Focuses on fonts, colors and images
- Simplified interface for ease of use
- Low cost of ownership, high productivity

FEATURES

- Stand-alone application
- QuarkXPress 7 and InDesign CS3 support
- Support for third-party font applications
- Scans, reports and collects
