

Fotostation SMA

Stay updated! Download new builds and versions with a Software Maintenance Agreement (SMA)

When you register your FotoStation standalone edition at the Fotoware License Center you can download new builds and versions of FotoStation, also those with new features and functionality, for 12 months. By ordering the FotoStation SMA you extend this period by another 12 months at the time. You are free to step out after the first 12 months at no additional costs. If you decide to continue, the agreement will be renewed on an annual basis. You will be notified by email every time there is a new build available on the Update Center. The annual price is only 18 % of the purchase price. As the leading Digital Asset Management workstation FotoStation will be frequently updated as to:

- New features and functions
- RAW file support
- General improvements
- Compatibility for 'Drag & Drop' into relevant graphic applications such as Adobe InDesign and QuarkXpress

FotoStation SMA is a simplified version of our Software Maintenance Agreement (SMA) and is for FotoStation only.
