

JoLetter

mail and merge with QuarkXPress

JoLetter is XTensions™ Software for QuarkXPress™ for creating high quality mailings. The data are supplied by ASCII files with tab separated entries. Most available database and spreadsheet applications are able to export their data in that way.

Features:

- Automatic removal of empty lines, “intelligent” space
- Several rows of data per page
- Support for images
- Rules
- Separate processing of static and variable data

Category

- XTension
