iPad/iPhone Apps. for the Publishing Industry

We publish your content on the iPhone, iPodTouch and your iPad!

Due to our long time experience as a developer and integrator of innovative softwaresolutions for the publishing industry, we know the complexity of the software infrastructure in publishing houses.

This is a big advancement for the development of specified iPhone apps. for publishers, because we know the neccessary databases and interfaces wich "feed" the iPhone app. with the needed information. This edge of knowledge allows us to develop iPhone apps quick and cost-efficient.

Our developers and designers have a hugh knowledge about the operating system of Macintosh and all necessary knowledge for the programming languages needed for the iPhone app. development.
Give us a call and tell us your ideas. Together with you will work out a solution.

Self-evident we develop iPhone apps. for other branches too.
