

QPS-Advantages for Newspaper Publishers

- **Real-time Collaboration:**

QPS® Web Hub easily integrates freelancers, field reporters, photographers, and other remote contributors from anywhere in the world into the workflow through a Web browser to create and edit text, upload digital pictures to the system, and improve overall productivity.

- **Productivity: Automate Tasks, Manage Content Easily:**

Create server-side scripts to automatically generate PDF/X, EPS, or PostScript® files, or to automatically convert images from one format into different formats. Archive and repurpose content easily by sharing a single content repository with Alfresco™ or picturesafe myCONTENT.

- **Low Cost of Ownership/Cost-effective:**

Uses an open standards-based architecture that leverages your existing IT infrastructure and skills.

- **Seamless Integration:**

Easily connects to your current business systems and complementary publishing solutions, like page-planning tools and output systems.

- **Easy to Use and Fast to Deploy:**

Role-based user interface simplifies daily tasks; "out-of-the-box" simplicity makes it easy to deploy.

- **Flexibility and Cost Savings:**

Through QPS® XTensions® for Adobe® InDesign®, easily include existing projects from QuarkXPress with QuarkCopyDesk and InDesign with InCopy® in a single workflow system. Manage all of your creative assets more efficiently; automate the routing of projects from either application in one workflow; monitor the status of projects in both programs; and achieve savings from reduced administration, training, and hardware costs.
