

Speller XT

Multilingual spelling tool for QuarkXPress

Speller XT is our smart (re-)spelling tool developed especially for QuarkXPress and QuarkCopyDesk. It offers highly accurate, high-speed spell checks in grammatical and lexical combinations for a vast variety of modern languages, extending from Europe to Malaysia.

Each Language Collection in Speller XT consists of one or more language lexicon(s), plus central and personal dictionaries. Users can save additions in personal dictionaries, which can be made available to others through a convenient client/server structure.

Key features.

Speller XT's language technology was devised by language institute *TALO, an expert in language tools for the professional publishing industry.

Key features

- Over 70 available language modules
- Accuracy: supplying you with proper alternatives
- Speed: the basic principles guarantee an economical spelling procedure
- Automatic learning capability for unknown words; but outdated words are forgotten
- Browsing through the lexicons for surprising words
- Enhanced lexicons (Containing over 1,6 million items)
- Separate lexicon palette to look up words
- Sharing personal libraries
- Identifies and applies language specific exceptionalities
- Recognition of e-mail addresses and URLs
- Expression Control helps maintain a uniform house style
- Easy to use interface
- Automatic language detection in multilingual documents (in QuarkXPress Passport or QuarkCopyDesk Passport)
- OCR aware
- Custom designed industry or organization specific versions always a possibility
