

StoryChaser

count characters, words and lines in a text chain

Lets you to count characters (with or without spaces/tabs), words and lines in a text chain.

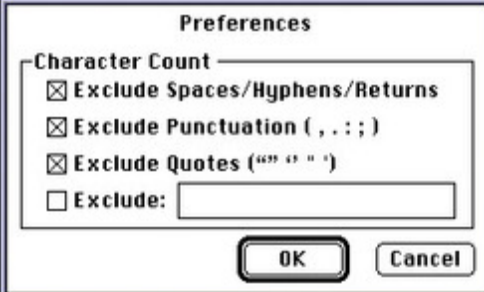

FREWARE-> [ex Counter](#)

The screenshot shows the StoryChaser application window. It features a table with the following data:

Page	From	To	Chars	Verds
1		2	4142	346
2	1	3	4141	346
3	2	4	4140	346
4	3	5	4113	343
5	4	6	4142	346
6	5	7	4141	346
7	6	8	4140	346
8	7	9	4113	343

Below the table, a summary text reads: "The story spans 12 pages, contains 48048 characters, which make up 4013 words." At the bottom of the window are buttons for "About...", "Prefs...", "OK", and "Cancel".

The screenshot shows the Preferences dialog box. It has a title bar "Preferences" and a section titled "Character Count". Under this section, there are four options:

- Exclude Spaces/Hyphens/Returns
- Exclude Punctuation (, . : ;)
- Exclude Quotes (" " ' ')
- Exclude:

At the bottom of the dialog are "OK" and "Cancel" buttons.
