

VTools

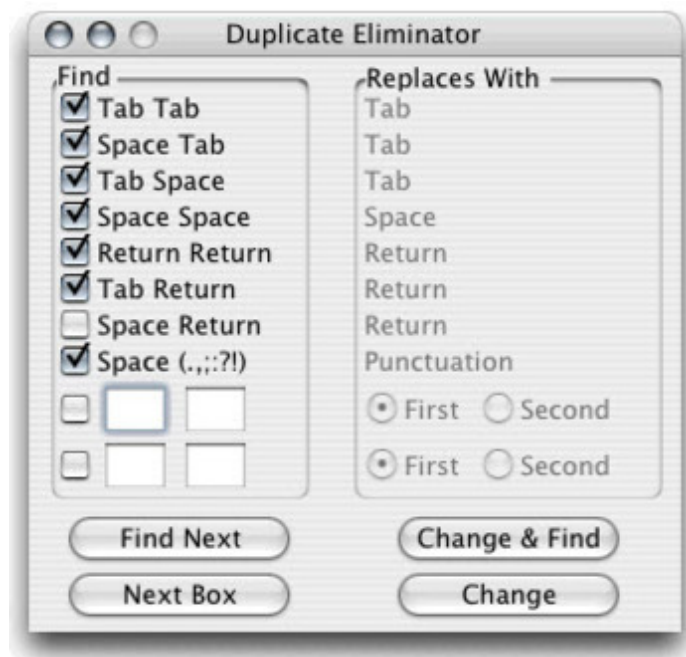

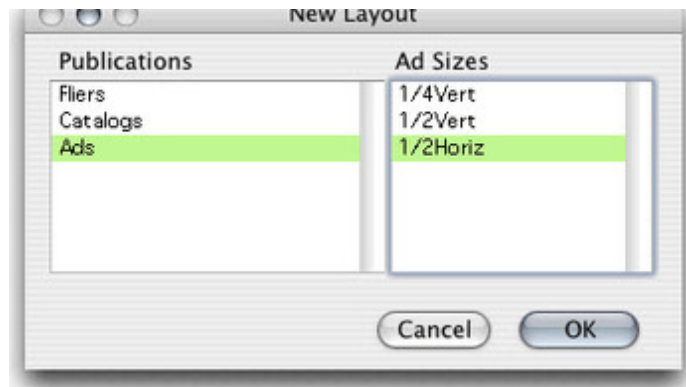

Helpfull collection of editing and product tools for XPress

VTools is a collection of useful editing and product tools. VTools is designed to handle several of the mundane tasks in a workflow environment and add useful features to QuarkXPress.

Simply put, VTools provides you with these solutions:

- Fit to Content
resizes a picture or text box to its content
- Full Fit Picture
resizes and crops a picture to fill its box
- Eliminate Duplicates
interactively removes several sequences of duplicated characters such as space-space
- Story Statistics
displays the character, word and line count of a story
- Process Colors
changes the color separation
- Auto Create Library
append the images in a folder to an existing library
- New Layout
creates new documents from a database of stored document sizes
- Advisory Board
is a simple mark up utility for marking text for review, redlining changes and adding production notes
- The VTools Palette
changes the text rotation, text skew, baseline shift and horizontal scale from a tiny palette
- Copy & Apply
is a copy and paste utility for copying text and paragraph attributes and applying these attributes to other text
- Case Conversion
changes the case of the selected text
- Link Tools
does linking and unlinking of stories that QuarkXPress does not do
