

Badia FullMeasure

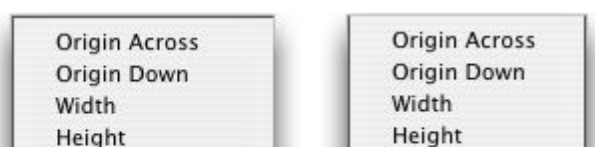

Control palette that gives you instant access to more than 160 functions, attributes and tools right at your fingertips

Badia FullMeasure is a powerful control palette that gives you instant access to more than 160 functions, attributes and tools right at your fingertips. The FullMeasure strip is organized into 12 panels that comprise text and paragraph formats, rule settings, picture information, item and frame settings, document preferences, table functions, guide management, item alignments, search tools and value conversions.

Features:

- Complete Picture Information and Linking Tools: picture name and full path, reveal picture/folder in Finder, open picture with creator or any application you choose, file size, color model, format, picture compression, picture suppression, resolution and effective resolution, update picture, link status, embedded EPS fonts/colors.
- Update All Modified Pictures: in one step, updates all pictures with 'Modified' status.
- Picture Alignments: aligns picture to the top/left/right/bottom side of the picture box.
- Redefine Style Sheet: redefines the current style sheet incorporating local formats.
- Remove Local Formats: reverts para/char settings to those specified by the style sheet.
- Case Conversion: sentence case, title case, all lowercase or all uppercase.
- Fit Box to Text: shortens or expands the text box to fit tight to the text inside.
- Character, Word and Paragraph Count.
- Keyboard Shortcuts: shortcuts for several FullMeasure functions.
- Up/Down Controls: allows you to increase/decrease any field value using Up/Down buttons.
- Add Guide at Baseline: adds a page guide along the baseline of the selected text.
- Remove All Tabs: removes all paragraph tabs in one step.
- Rules Panel: allows you to set paragraph rules and modify all settings.
- Table Panel: allows you to quickly access common table functions.
- Find Panel: searches for item and picture attributes in the entire document.
- Reference Points: to specify item coordinates and dimensions relative to any reference point (top-right of the box, center, etc.).
- Nudge Controls: gives you buttons for moving items up/down/left/right by any custom amount that you specify.
- Convert Measurements Between Units: allows you to convert measurements between inches, picas, points, millimeters, centimeters, ciceros and pixels.
- Guide Placement: allows you to view the exact position of all horizontal and vertical guides.
- Delete All Guides: deletes all horizontal or vertical guides at once.
- Step and Repeat Guides: allows you to place guides numerically. You can also step and repeat guides.
- Add Custom Views: allows you to save any document view.
