

Multi Lingual

COPAN is fully implementable in International / Multilingual environments. Individual user languages can be defined alongside default corporate languages. A business partner language can be defined independently of individual or system language definitions. COPAN has a huge multilingual flexibility.

- Choice of editing language
- Choice of standard language
- Country specific address formatting
- Applying languages for business partner, addresses and contacts
- Translation chart for technical terms
- Maintenance of exchange rates
- Country-specific special features will be regarded
- COPAN own font with accents and special characters

The screenshot shows the 'Languages' configuration window. On the left, there is a table with columns 'No.', 'Name', 'System', and 'Default'. The table lists 15 languages, with 'US-Englisch' (No. 0) selected. On the right, the settings for the selected language are displayed, including fields for Name, System, Default, Macregion, Macscript, Maclanguage, Winlanguage, Winsublang, Created on, Created by, Modified on, and Modified by.

No.	Name	System	Default
0	US-Englisch	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
1	Französisch	<input type="checkbox"/>	<input type="checkbox"/>
2	Intern.-English	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
3	Deutsch	<input checked="" type="checkbox"/>	<input type="checkbox"/>
4	Italienisch	<input type="checkbox"/>	<input type="checkbox"/>
5	Niederländisch	<input type="checkbox"/>	<input type="checkbox"/>
6	franz. Belgian/Lux.	<input type="checkbox"/>	<input type="checkbox"/>
7	Schwedisch	<input type="checkbox"/>	<input type="checkbox"/>
8	Spanisch	<input type="checkbox"/>	<input type="checkbox"/>
9	Dänisch	<input checked="" type="checkbox"/>	<input type="checkbox"/>
10	Portugiesisch	<input type="checkbox"/>	<input type="checkbox"/>
12	Norwegisch	<input type="checkbox"/>	<input type="checkbox"/>
13	Ungarisch	<input type="checkbox"/>	<input type="checkbox"/>
14	Techechisch	<input checked="" type="checkbox"/>	<input type="checkbox"/>
