

Ad list

The booked ads are itemized in the ad list and can be dragged & dropped or automatically (full or semi) placed in an opened QuarkXPress document.

The information of the ad system and QuarkXPress document will be adapted and only consistent ads will be placed on a page.

The screenshot shows a software window titled "ex Ad2PlanPro - AUSTAUSCH 8.out:anzeigen.txt". It contains a table of advertisements with columns for ID, URN, Customer, Catohline, Width, Height, Colour, Colour1, Colour2, and Section. The table lists several ads, with the third row (ID 5128568) highlighted in blue. Above the table are buttons for "Place Ad", "Remove", "Show", and "Ad list", along with a "Zone" dropdown set to "GAZ AAZ WZN WZV WPM WPS". A search bar and "All ads" button are also present.

ID	URN	Customer	Catohline	Width	Height	Colour	Colour1	Colour2	Section
