

ex FunkInform2Q

Interface between FunkInform and QuarkPublishingSystem®

ex FunkInform2Q XT is an interface between FunkInform and QPS. An FunkInform export file contains information about booked ads, i.e. size, page, path to the file). This information will be read by ex FunkInform2Q XT and forwarded to the XTension [ex Plan2Page](#). This XTension creates new QuarkXPress documents which already contain the ads and checks them in to QPS.
