### Different tools for picture handling

ex ImageDesk offers different tools for an simplified and automated picture workflow.

Automatic creation, positioning and styling of captions and bylines are provided as well as warnings in case of flashes and picture quality problems.

Furthermore an automated workflow for picture optimization (format, resolution, crop, color space, olor optimization) can be realized by using ex ImageDeskXT in combination with picture optimization software like FotoWare **Color Factory**, Elpical **Claro Premedia** or AGFA **Arkitex IntelliTune**.
