

ex Mark & Jump

Mark words or complete sentences by keystroke

Speed up editing in QuarkXPress by "jumping" and "marking" words or complete sentences by hotkey. In the ex Mark&Jump Preferences dialog you can create an exception list. Here you enter and edit all names, abbreviations etc. which include some type of punctuation marks (for instance i.e., e.g., etc., Mr., Dr.), so that ex Mark&Jump does not consider this the end of a sentence.
