

Special details

This is where to define special XML tags, consisting of constants, the clear article ID, automatic node numbers (to go back/forth within articles or pages in the ePaper) and customer specific tags.

The image shows a dialog box titled "XML assignments". It is divided into two main sections: "XML Target" and "Layout Source".

XML Target section:

- Type:** A dropdown menu with "Element" selected.
- Name:** An empty text input field.
- Occurence:** A dropdown menu with "1" selected.
- Format:** An empty text input field followed by a checkbox labeled "CDATA Section".

Layout Source section:

- Type:** A dropdown menu with "Other" selected. A context menu is open, showing the following options:
 - ✓ Constant (selected)
 - UID
 - MediafinPubTime
 - MediafinEdition
 - NodeCount
- Name:** An empty text input field.
- Sources of same type:** An empty text input field.
- Format:** An empty text input field.

At the bottom of the dialog box are two buttons: "Cancel" and "OK".
