MadeToPrint

Enhanced output management with QuarkXPress, Adobe InDesign and QuarkPublishingSystem (QPS)

MadeToPrint InDesign is the approved international standard solution for enhancing, ensuring and streamlining all output processes from professional layout applications like XPress and InDesign. It offers maximum power & flexibility in terms of automating printing and creating PostScript, EPS or PDF files. MadeToPrint is indispensable for users in publishing, prepress and graphic arts, having to process more than five documents a day...

Interested in automation? Click here for infos on MadeToPrint Auto

Benefits

- put an end to media waste caused by improper settings and allows for unattended output of documents to any variety of formats.
- speed up, ease up and secure producing by combining all aspects of print jobs into simple selectable items.
- standardize all printing and file exporting demands
- create your output according to flexible naming conventions, distinguish between print and file naming when it comes to producing imposition suitable output.
- safe time and efforts by labelling output with specifications on time, date, machine. Make identifying output a breeze by adding infobars with detailed metadata to each document.

Features

- extends print + export styles
- saves even complex output settings in one-click-jobs
- outputs PS, EPS and PDF single pages for imposition
- allows rule based, dynamic naming of files and directories
- adds infobar with flexible, dynamical information to pages
- outputs layers and layer combinations flexibly
- prints, proofs and exports different files/file formats in one go
