QPS 8-Advantages for Agencies

- **<u>Flexibility:</u> Use Both QuarkXPress and InDesign in the Same Workflow System**
Through QPS® XTensions® for Adobe® InDesign®, easily include existing projects from QuarkXPress/QuarkCopyDesk and InDesign/InCopy® in a single workflow system. Manage all of your creative assets more efficiently; automate the routing of projects from either application in one workflow; monitor the status of projects in both programs; and achieve savings from reduced administration, training, and hardware costs.

- **<u>Productivity:</u> Collaborate in Real-time**
With QPS, let multiple users work and contribute simultaneously to a single project and provide real-time updates to everyone in the workflow. QPS Web Hub easily integrates freelancers, remote contributors, and your clients from anywhere in the world into the workflow via a Web browser for text editing and general project management.

- **<u>Speed and Accuracy:</u> Streamline the Creation and Delivery of Marketing Collateral**
QPS lets you create an automated workflow to route files to the next person or step in the workflow, eliminating errors and speeding up the overall production process. Define server-side scripts to automate tasks and create PDF/X, EPS, or PostScript® files, or automatically convert images from one format into different formats.

- **<u>Impact:</u> Increase Your Design Capability**
Through compatibility with QuarkXPress 8, help your creative professionals work faster and smarter; create print, Web, and Flash® design using one software application; and take control of their design so they can push their concepts further.

- **<u>Reach:</u> Publish Globally**
Choose among dictionaries and hyphenation in more than 30 languages, open and print QuarkXPress 8 files created anywhere in the world, and tap into easy-to-use, professional-grade East Asian typography.
