

Relay Preview

Relay Preview is designed to enhance Digital Horizons digital delivery product, Relay™

Relay Preview is designed to enhance Digital Horizons digital delivery product, Relay™. Relay Preview creates a 200 dpi gray scale preview of your document that can be used with Relay™. With Relay Preview you get high quality previews used for fax approval. And the best feature of Relay Preview is that once you configure it, it works in the background without interfering with your work.

Features

- 200 DPI 8"x10" gray scale preview
- Preview pages or spreads
- Automatically updates outdated previews
- Effortless integration with Digital Horizons Relay™
- Digital Horizons Relay™ is an independent Digital Delivery System for Communication and Advertising Material.

Relay™ is a new and innovative product that revolutionizes the traditional method of digital delivery. Developed by a team of communication engineers, Relay is designed to effectively prepare, deliver and confirm delivery of any digital file in one easy step.
