

TypoLink

converts Berthold typesetting to QuarkXPress files

An XTension which converts Berthold typesetting to QuarkXPress files. Included is picture version, the own box tools commands, rules, shades or CMYK images from Berthold. The Berthold images are automatically placed in the correct QuarkXPress boxes.

The image shows a dialog box titled "Grundeinstellungen" (Basic Settings) for the TypoLink XTension. It contains several options with checkboxes and two input fields. The options are:

- Alle Rahmen verketteten
- WR/WE, Feld - Neuer Rahmen
- Neigung bei Zeilendrehen
- Grundlinienverschiebung
- Unterstreichungen
- Fehlende Schriften melden
- Zeilenenden erhalten
- Zeilenschaltung Absatz
- Anführung umwandeln
- Akzente als Zeichen
- Linienbox als Bildbox
- Unterschneidungen
- Nur Linien konvertieren

There are two input fields: "Flexibler WZR" with the value "10" and "Sperrwert" with the value "-1". At the bottom right, there are two buttons: "Abbruch" (Cancel) and "OK".
