

# TypoPlus-XTension

Various functions for the professional set of documents

The TypoPlus-XTension offers you a lot of functions for the professional set of documents, which you are not able to use in QuarkXPress.

- Underlining of text with automatically omitting of Underlength
- Definition of the distance, thickness, colour, tone value and the style of the line
- Definition of the size of the omission and of the distance of the underlength
- comfortable preferences for different fonts

## Sentence-mark-positionsview:

It shows you, usual by classic sentence systems, the exact position of actual input position (font line and sign) to the neutral point (zero).

## Super-Tabs with:

numeric storage of 20 tabulators, simultan movement several tabulators, simultan working on several tabulators

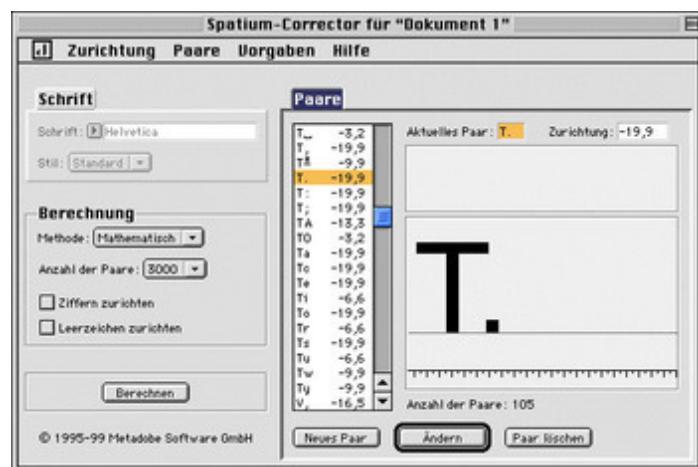

- Tape measure with length- and angle-measurement and different screen functions
